what wender then that Washington's fair and brave gathered to witness the annual contest, and that the cups remained in the keeping of the local organization?

Other large and fashionable gatherings in the epen were brought out by the com-petition for blue ribbons at the Chevy Chase Horse show Friday and Saturday. The occasion was an exhibition of so-ciety's horse flesh, so around the riding were banked the traps and carriages many of the noble society folk of Washington and Baltimere. As no automobiles wers allowed on the grounds, those who like Mizs Alice Roosevelt arrived in a "red devil," were required to "hitch" it cutside the nale

cutside the pale.

Mrs. Courtland H. Smith, of Virginia, on Chappie Lee, was the only rider to clear the brush and bars without an error. Miss Elkins, daughter of the Senator from West Virginia, shared the honors with Mrs. Smith, winning much applause for her fearless riding.

The British Ambasador arrived in time to see his daughter's mount return the brush four times, and then be sent to the paddock in disgrace.

brush four times, and then be sent to the paddock in disgrace.

The first afterneon's sport opened with an exhibition of ponies in harness, driven by diminutive Miss Frances Moore, and her small brother, Master Presion Moore. The closing event was a novelty, nine of the best barses and riders in the District of Columbia police force entered into competition, carrying off a \$50 prize.

A decided impetus has this season been given to base balling by the Sunday-school Athletic Association, Twolve teams, representing as many Churches, play regularly two games each evening, as per schedule, one upon the White House elipse and one on Columbia Heights. In this movement the Association has a two-fold-purpose, first, of getting hold for good on young men, and second, in the interest of clean bare hall. President Roosevelt has become interested in the Association to the extent of ordering that permission be given to use the White Ellipse, a circular space large shough for three games to be played at one time. This plot lies almost in the heart of the city, between the White House and the George Washington Monument, and has never before been opened to the public for athletic sports, though military drills are sometimes held there. A decided impetus has this season been

Breakfasts, luncheons and dinners at the Country, or the Chevy Chase Culus, being the piece de resistance for nearly every hostess.

The annual spring fournament of the Chevy Chase Golf Club was Washington's most important golfing event, and was participated in by golfers from New York, Philadelphia, Pitoburg and Bultimore.

The National capital boasts to three first-class golf clubs, the roster of whose joint membership includes the names of men high in the gosnell of the nation, from Justice J. M. Harlang of the United States Supreme Court, down the entire gamut of government officials. Admiral Dowey and General Miles are among the enthusiasts.

Viscount Charles de Chamzrun, of the French Embassy, has, also returned during the week after a short visit to his family in Parls. He will soon go with the French Charge ("Affairs to Narragansett Pier, where the Embassy will be established for the summer.

Count de Chambrun is closely related to the Rochambeaus of France, and first came to America to participate in the corremonles attending the unveiling of the Count de Rochambeau statue, which this government of France presented to Washington in 1902.

The Marquise de Chambrun was Miss Nichola, the daughter of Mrs. Bellamy Storer, of Ohlo.

Dame Rumer is busy with the names of diplomats just now, and is authority for the report concerning the probable return of Dr. Thomas Herran as Charge d'Affairs for Columbia. She further asserts that the balm of healing applied to lacerated feelings of the Bogota government after the sudden gration of the incorated feelings of the Bogota govern-ment after the sudden creation of the Republic of Panama is proving effectual, and that Colombia herself has requested the re-establishment of diplomatic rela-tions with the United States.

FERGUSON'S WHARF, May 14.—Dr. W. D. Turner, of Shoal Bay, has gone the egg-producing business a large scale. He will establish a hennery on his farm with three thousand hens. He has erected on immense hen house, three hundred feet in length, with all modern and most up-to-date appli-ances for the business. With the pres-ent price of eggs and fewls properly managed it should prove a profitable

The farmers are very much behindhand in the spring planting. Very few have finished planting corn, and no land is plowed for peanuts yet. The high price of peanuts the last season tonds to increase the acreage largely this year. Peanuts at one dollar per bushel means flush times with the planters. Labor is scarce and high, however, and is quite a serious problem, especially on the river, as most of the hands during the fish and oyster season will not work on the farms for any reasonable price.

BLOW TO BRANDY.

The severe cold snap about two weeks ago has almose entirely destroyed the fruit crop. Reports from all over the country say that the apple crop will be almost a complete failure, which means that the hyandy men will be put out of business for this season. Isle of Wight, Surry and Southampton have long been known as the bandy making countels of Fastern Virginia. Many farmers have immense orchards of apple trees which are worthless for anything else but for cider, they being of a class of apples which are not worth shipping; and since the vinegar manufactured in so-called vinegar factories from chemicals have been put on the market at such low a prices it will not pay the farmers to manufacture elder vinegar, so the only way they can utilize the fruit is to make it into brandy.
